Project on equipping of a newly built part of the school

Primary School "Vrhbosna" is situated in the rural part of Stari Grad Municipality. It is the only public institution, which provides educational services for children and is open for cultural and sports life of the local people in Faletići, Obhođa, Hladivode and Donje Biosko settlements. The school was built in the 1960s of the last century. The first generation started its primary education in this school in the 1966/1967 school year. During the aggression on Bosnia and Herzegovina, the school was set on fire and completely destroyed on August 9 1992. The reconstruction of the part of the school facility started in 1996 but it has not been completed yet. Despite that, 300 students attend classes in this school even today. Classes and extra-curricular activities are taking place in seven classrooms upstairs and three basement rooms readjusted to classrooms.

The school library is situated in the corridor. All the engineering classes i.e. natural sciences classes (physics, biology, chemistry) take place in the same classroom. Only the first graders have their own classroom because they have to have a special classroom given legal regulation in our country. The school does not have conditions to organize an extended day programme, which is necessary for many students. Full-time teacher meetings are taking place in the improvised staff room.

The conditions for holding classes in this school are somewhat difficult and thanks to the school management and enthusiasm of teachers, parents and students, teaching process still goes on. The students and the teachers are achieving satisfactory results at competitions, festivals and exhibitions. The 2013/2014 school year accomplished results are as follows:

- Physics
 - ✓ 1st place (municipal level)
 - ✓ 5th place (cantonal level)
 - ✓ 3rd place (federal level)
- IT
 - ✓ 1st place (municipal level)
 - ✓ 4th place (cantonal level)
- Maths (municipal level)
 - ✓ 1st place (individual)
 - ✓ 2nd place (team)
- Civitas (municipal level)
 - ✓ 3rd place (team)
- Indoor soccer (municipal level)
 - ✓ 1st place
- RS (cantonal level)
 - ✓ 4th place

Beside regular classes, there are also 23 extra-curricular activities. Students who show special interest in natural or social sciences have additional teaching/classes. Studying languages (English, German, Arabic and Turkish) is of a significant importance. These languages are taught at additional classes for talented students.

So far, the management of Primary School "Vrhbosna" in cooperation with Stari Grad Municipality, Federal Ministry of Education and Science of Bosnia and Herzegovina and EUFOR (Turkish battalion) has provided the means invested in reconstruction of the other part of the school. With project intervention, the problem of equipping the reconstructed part would be solved as well as organization of the classes. Adequate conditions for implementation of regular classes and extra-curricular activities would be provided for, too.

Enclosure: budget for equipping of a newly built part of the school facility:

- Electrical installations, to the amount of 32.096,95 KM
- Hydrant network, to the amount of 5.613,80 KM
- Sanitary installations, to the amount of 8.369,00 KM
- Sanitary ware, to the amount of 5.909,00 KM
- Central heating, to the amount of 17.771,27 KM
- Insulation work, to the amount of 7.920,00 KM
- Floor laying work, to the amount of 11.752,00 KM
- Masonry work, to the amount of 30.799,89 KM
- Ceramic tile work, to the amount of 26627,04 KM
- Joinery work, to the amount of 5.900,00 KM
- Plastering work, to the amount of 22.275,00 KM

Sum-total without VAT: 175.033,95 KM

VAT 17% 29.755,77 KM

Sum-total with VAT: 204.789,72 KM

Respectfully,

Principal

Mirsad Lelo
